Recreation and Environmental Center

## December 12-14, 2025

### TRAIL REPORT

We have a firm base started. There are thinner spots on the lower trails until we receive more snow, this is all we can offer. Fat biking and snowshoe conditions are good. Feel free to skate ski or classical on the groomed trails.

The ski shop is still closed. Enjoy!

**We ask that you don't walk on trails in order to preserve our base.**

**Think Snow!!**
