## December 18-21, 2025

### WEEKEND TRAIL REPORT

We are expecting temps in the 50's with rain and winds on Friday, then dipping into the 20's.

This will most likely produce some icing on the trails for the weekend.

Our very thin skiing base may disappear as well.

You are welcome on the trails, but please use good judgement. Micro-spikes may be needed.

We will update this report on Monday, December 22nd when we return to the office.

**Think Snow!!**
